IMAGE	DESCRIPTION	PRODUCT INFO
	<p>1- L Light switch Sonoff TX series (black or white)</p>	<p>The WiFi smart switches with 1-3 gangs. T3 is available in black, and T0 and T2 are available in White. Additionally T2 and T3 support 433MHz remote controller to control.</p>
	<p>2- L Light switch Sonoff TX series (black or white)</p>	<p>All switches can be controlled remotely using your phone, and devices connected with switches can work independently. Works with Amazon Alexa and Google Assistant which allows you turn your appliances on or off with a simple voice command. The simple and stylish switches feature sensitive touch buttons to ensure a modern and sleek finish on any wall surface. For your peace of mind when it comes to security and energy efficiency, simply set a time schedule to power your device on or off to suit your needs.</p>
	<p>3- L Light switch Sonoff TX series (black or white)</p>	<p>Compatible with IFTTT function, the switches can communicate with a slew of devices, to trigger them on or off. Not sure whether you switched that light off? Take out your phone to see the real-time device status on the eWeLink app.</p>

	<p>1- L DIMMER Light switch Ewelink (black or white)</p>	<p>Features: Workable Light for the Dimmer Switch The WiFi Dimmer Switch can work with Incandescent lamp, halogen lamp, Iodine tungsten lamp, Resistive buck LED lamp, stepless dimming LED lamp. Not all LED bulbs are suitable for our WiFi dimmer switch, so we have a dimmable LED bulb that can be dimmed with the WiFi switch. Intelligent dimming, intelligent life. Smart WiFi touch control Stepless Dimmer Switch This touch dimmer switch supports maximum power of 300W that can work with most lights with dimming function. This dimmer provides the maximum amount of stepless dimming range, user can dim the light to save more electricity and extend bulb life. Voltage: AC 90-250V voltage. APP Remote Control User can use a smartphone to remotely turn on/off lights or adjust stepless brightness at anytime and anywhere via APP as long as the iOS/Android phone has 3G/4G/WIFI network, enjoy the convenience of intelligent life! App: eWeLink (Not support RF433 remote control.) Compatible with Amazon Alexa / Google Home / IFTTT</p>
	<p>BASIC 10Amp including enclosure housing (junction box)</p>	<p>Sonoff Basic is an affordable WiFi smart switch that provides users with smart home control. It is a remote control power switch that can connect to a wide range of appliances. Sonoff Basic WiFi electrical switch transmits data to a cloud platform through the WiFi Router, which enables users to remotely control all the connected appliances, via the mobile application eWeLink.</p>
	<p>BASIC 10Amp with RF</p>	<p>The remote functionality gives you the ability to not only control using your mobile device or tablet but also allows you to switch lights from the remote control. Works with radio frequency therefore you require a RF bridging device to control with WiFi</p>
	<p>Remote for 10Amp with RF</p>	
	<p>Sonoff MINI</p>	<p>This is a mini and compact DIY smart switch used for different kinds of switch boxes, even the smallest EU standard switch box. make use of your existing switches and make them smart! Convenient to automate your home appliances with eWeLink app through your smartphone or tablet or your voice command. Support to connect an external rocker light switch unable to automatically spring back for easily managing connected devices in your home, both on your phone or directly from the wall. It supports the DIY mode (designed for developers) which allows users to integrate MINI into worldwide third-party open source smart home control system to achieve LAN control without cloud service, such as Home Assistant, openHAB, ioBroker .etc.</p>

	<p>TH16 for pool or geyser (without current recording or monitoring)</p>	<p>Sonoff TH16 is a wireless temperature and humidity monitoring switch which can remotely monitor and set temperature and humidity range to turn on/off connected appliances through the iOS/Android APP eWeLink. Just as the name indicates, the Sonoff TH temperature and humidity monitor device supports two maximum current supply specifications: 15A.</p>
	<p>POW r2 for pool or geyser (with current recording or monitoring)</p>	<p>Remote Control –Turn electronic devices on/off from anywhere Monitor Energy Usage –Keep track of live power, current and voltage of your appliances on App Historical Energy Consumption –100-day daily/monthly energy usage data and total electricity cost Overload Protection –Set power, current and voltage threshold values to let appliances auto-off Measure Power Usage for a Period –Measure your appliances' power consumption for a specified time Sync Status–Real-time device status provided to App Timing Function –Supports 8 enabled scheduled/countdown timers Share Control –Invite your family to control your smart home together Scene–Turn on/off a gang of devices with one tap or triggered on/off by another smart device Smart Scene–Triggered on/off by temp, hum or other environmental conditions from a sensor APP Supported –Free iOS and Android eWeLink app Compatibility –Works perfectly with Amazon Alexa, Google Assistant, IFTTT, Google Nest</p>
	<p>Thermometer probe (temp sensor)</p>	<p>used in conjunction with TH16 device</p>
	<p>Humidity probe / sensor</p>	<p>used in conjunction with TH16 device</p>
	<p>Gate or garage door (without OPEN/CLOSE monitoring)</p>	<p>Used for gate motors & garage doors, easily installed as per schematic however does not have functionality of door OPEN/CLC</p>
	<p>Gate or garage door (with OPEN/CLOSE monitoring)</p>	<p>used for gate motors & garage doors, easily installed as per schematic comes with the functionality of door OPEN/CLOSE statu</p>

	<p>RING doorbell</p>	<p>Works with Alexa to illuminate and send announcements to Echo devices when your doorbell is pressed or motion is detected, allowing you to hear and speak to visitors with two-way talk Lets you see, hear and speak to visitors from your phone, tablet and PC Sends alerts as soon as motion is detected or when visitors press the Doorbell Powered by the rechargeable battery pack or connects to doorbell wires for a constant charge Monitors your home in 1080HD video with infrared night vision Lets you check-in on your property at anytime with Live View on-demand video Includes Lifetime Theft Protection: If your Doorbell gets stolen, we'll replace it for free</p> <p>Quantity Sold out Share this: Share on Facebook Tweet on Twitter Share on Google+ Share on LinkedIn Pin on Pinterest</p>
	<p>ALEXA Echo SHOW 2nd GEN with monitor</p>	<p>Premium speakers with Dolby processing let you stream music and books in crisp, stereo sound. With a vibrant 10.1" HD screen for watching videos, movies, and TV shows—in a new fabric design. Ask Alexa to see lyrics and album art with Amazon Music.
